EDUCATION

Bulacan State University - BS Information Technology

2020-2025

Relevant Coursework: Software Engineering, Database Systems, Artificial Intelligence

WORK EXPERIENCE

Crystal Vision - Software Engineer / QA Tester | Remote

Aug 2025 - Present

Rola Access Platform (Full Stack)

- Architected a full-stack enterprise platform using NestJS 11, Next.js 16, React 19, MySQL, Sequelize, RTK Query, and JWT security, delivering scalable APIs, type-safe admin operations, and high-performance authentication, moderation, payments, and analytics workflows.

KOL Dashboard (Full Stack)

- Engineered a Laravel 12 backend with RBAC, Prisma, MySQL, OTP security, analytics pipelines, and CSV export workflows, delivering secure and scalable referral, finance, notification, and admin operations.

RR Remo Trucking - Software Engineer (Full Stack) | Freelance

May 18 - May 29

- Architected an AI-powered logistics platform using Next.js 16, React 19, TypeScript, and Groq LLaMA 3.1, delivering scalable customer support, SEO optimization, and automated lead-generation workflows.

Smart-lift AI - Software Engineer (Full Stack/ QA Tester | Personal Project

March - April

- Engineered a full-stack fitness platform using Next.js 16, NestJS 11, Prisma, and MySQL, delivering scalable training, nutrition, analytics, and role-based user management workflows.
